

MAXIMISE ENGAGEMENT AND IMPROVE RETENTION LEVELS

An employer's ultimate goal should be to align personal and organisational goals so that you provide growth opportunities to the right employees, maximise engagement, and improve retention while operating and building a sustainable business.

Smart, innovative employers understand the need to not only find right employees but also to offer them benefits beyond an excellent salary. Included in those benefits is the need for talented employees to achieve job satisfaction and career growth.

EMPOWER YOUR EMPLOYEES TO UNLOCK THEIR POTENTIAL

WHAT IT IS

sparkChief™ is a unique diagnostic tool that provides employers with insights about potential career development, employee engagement, and retention and motivation risks they face in their organisation.

WHAT IT DOES

sparkChief™ assesses employees against a range of key strategic career development indicators. Employers gain insights on how to address challenges faced by employees in regards to career development, engagement, and retention.

WHAT YOU GET

- Customised organisation diagnostic reports that provide the employer with analysis, insights, and potential organisational risks.
- Customised recommendations that allow employers to determine and deploy the right HR programmes to improve career development activities for their workforce, as well as boost employee engagement and retention levels.
